BUIST'S SELECTED, OR PRIZE STONE TOMATO

The favorite variety for Market Gardeners because of its solidity and firmness; of brilliant-red color ripening to the stem, beautifully formed from stem to blossom, free from ridges or blight.

ROBERT BUIST COMPANY

SEED GROWERS

Seed } Nos. 4 and 6 South Front Street
Warehouses } 1st door below Market Street

PHILADELPHIA, PA.

Buist's Premier Extra Early

more largely by the market gardeners of this country than any other brand of Extra Earlys, except the Buist's Morning Star. Its productiveness, earliness, evenness of ripening and great delicacy of flavor are its great features. Price, $\frac{1}{4}$ Bushel, \$2.00 ; 1 Bushel, \$7.50.

Early Alaska.—This is the earliest blue variety in cultivation; the dark green color of its pods makes it a desirable shipping variety, as it will carry long distances without losing color; this quality combined with its extreme earliness recommends it very highly to the market gardener. Price, $\frac{1}{4}$ Bushel, \$2.00 ; 1 Bushel, \$7.50 : 10 Bushels at \$7.25.

Extra Early Gradus, or Prosperity (Wrinkled).—This is the most famous of all the wrinkled varieties, and cannot be recommended too highly; it is the earliest wrinkled variety known; very hardy and a vigorous grower, two and a half to three feet in height, very prolific and producing pods nearly as large as the famous Telephone, four to four and a half inches long, and filled with eight to ten large peas, which are of delicious flavor. Price, $\frac{1}{4}$ Bushel, \$4.25 ; 1 Bushel, \$16.00.

Thomas Laxton.—This variety is nearly as famous as the celebrated Gradus, which it closely resembles, producing very large, well-filled pods, with deep green-colored peas; it is very productive, sweet and delicious flavor, highly recommended. Price, $\frac{1}{4}$ Bushel, \$4.25 ; 1 Bushel, \$16.00.

The Pea Crop this season is almost an entire failure, it is the shortest crop for the past 20 years.

BUIST'S PREMIER EXTRA EARLY PEA

The earliest, Most Productive and
Most Profitable Variety for
Market (excepting the
Buist's Celebrated
Morning Star)

Before the introduction of our famous Morning Star, this was the earliest and most profitable variety known, and today requires no comment from us to recommend it, as it is grown

Gradus or Prosperity

Buist's Lightning Early Valentine Bean. Earlier than any other Valentine.

Buist's Lightning Early Valentine.—We recently introduced this variety which has become famous in all the Bean-growing sections of our country. It is well named as it is lightning in ripening in comparison with any other stock of this popular Bean. The pods are large, round and tender, is very productive, and when young entirely stringless. It cannot be commended too highly to the market-gardener, as he derives his greatest profit from the earliest crops, and this surpasses all other stocks of Valentines in both earliness and productiveness. It is sold only in our sealed packages and lead sealed sacks. Price, $\frac{1}{4}$ Bushel, \$1.50; 1 Bushel, \$5.25, 10 Bushels at \$5.00 per Bushel.

Black Valentine.—A recently introduced variety which has become quite popular in some localities, producing long, straight pods, which are quite attractive in their appearance. Price, $\frac{1}{4}$ Bushel, \$1.40; 1 Bushel, \$5.00; 10 Bushels at \$4.75 per Bushel.

Burpee's Stringless Green Pod.—One of the finest of the stringless varieties, and now ranking with the famous Valentine in popularity and value. It cannot be recommended too highly to either the market gardener, private grower or canner; it is ready for the table as soon as the Valentine, and the pods being round and full, are very fleshy and succulent; they are absolutely stringless, which secures for it the recommendation of every house-keeper, as there is not a more disagreeable dish for the table than stringy beans; although cooks profess to string them before using, yet they rarely do it. Price, $\frac{1}{4}$ Bushel, \$1.65; 1 Bushel, \$5.75; 10 Bushels at \$5.50 per Bush.

Wardwell's Kidney Wax Bean.

Wardwell's Kidney Wax.—One of the most profitable varieties for the market gardener; especially popular in the South; long, straight, cream yellow pods of excellent quality; plant medium sized, maturing a little later than Golden Wax. This splendid variety is now a popular favorite everywhere, not only for shipping, but for the local market and the home. Price $\frac{1}{4}$ Bushel, \$1.65; 1 Bushel, \$5.75; 10 Bushels at \$5.50 per Bushel.

Fordhook Bush Lima

Fordhook Bush Lima.—A great improvement over the Dreer Bush, being more erect in its growth, more productive and producing larger pods, containing more beans, which, when even of full size, will cook tender, and of delicious flavor. Price, $\frac{1}{4}$ Bushel, \$2.10; 1 Bushel, \$7.75.

Burpee's Dwarf, or Bush Lima.—Produces beans as large as the Pole Lima, but in every other

Burpee's Improved Bush Lima

respect they are similar to the Henderson, except in quality, which we regard as superior, having more of the flavor of the old Lima; they are, however, more liable to contain runners; the plants grow about twenty inches high, of stout growth and erect, yet branching into a bush from two to three feet in diameter. Price, $\frac{1}{4}$ Bushel, \$2.00; 1 Bushel, \$7.50.

Burpee's Improved Bush Lima.—Also an improvement over the popular Burpee's Bush, producing both pods and beans of a much larger size and two weeks earlier. Price, $\frac{1}{4}$ Bushel, \$2.25; 1 Bushel, \$8.25.

Dreer's Bush.—Possesses all the good qualities of the Dreer's Improved or Challenger Pole Lima, growing vigorously about two feet high and showing no disposition whatever to run. It produces pods in great abundance. The beans grow close together, four and sometimes five in a pod, and are thick, sweet and succulent. Price, $\frac{1}{4}$ Bushel, \$1.75; 1 Bushel, \$6.50.

Henderson's Dwarf, or Bush Lima.—Many prefer the Dwarf Lima to the Pole Lima, yet in our estimation we regard the running variety decidedly preferable, but the former has some advantages, as they require no support and come into bearing a month earlier. They grow fifteen to eighteen inches high and continue producing until frost. Price, $\frac{1}{4}$ Bushel, \$1.75; 1 Bushel, \$6.25.

Dreer's Bush Lima

Buist's Thoroughbred American Grown Cabbage Seed.

EARLIEST VARIETIES

Buist's Selected Strain. (Its great Features are its Size and Earliness)

THIS STOCK OF JERSEY WAKEFIELD IS UNSURPASSED

It is Sold only in our Sealed Cartons

Early Jersey Wakefield (Buist's Selected Strain).—Each year this variety is becoming more popular, and demand greater. It has not been very long since its growth was confined almost exclusively to the market gardeners of New Jersey, but it has gradually disseminated into other sections, and now is well known and highly appreciated by all the leading market gardeners of this country. It is the best and most profitable early variety to grow for either market or private gardens, as it is always sure to form fine, solid heads, and is the largest heading of all the early varieties. This special stock or strain is famous everywhere, both with market gardeners and private growers. It is sold only under our seal. There is no stock superior to it. Oz., 25c.; $\frac{1}{4}$ lb., 75c.; lb., \$2.50.

The Charleston, or Large Jersey Wakefield.—This famous variety has all the fine qualities of the Early Jersey Wakefield; it produces heads of a much larger size, but is two weeks later. It has become a leading market variety in all sections of our country where the Cabbage is grown extensively for market. Oz., 25c.; $\frac{1}{4}$ lb., 65c.; lb., \$2.25.

Buist's Earliest Flat Head.—This variety has given such great satisfaction that we consider it peerless among the early sorts. Combined with earliness it unites compactness with excellent quality; forming flattish heads, and quite large for an early strain; having a short stem and but few outside leaves, permits of close culture. Oz., 25c.; $\frac{1}{4}$ lb., 65c.; lb., \$2.25.

Buist's Earliest Flat-Head Cabbage

LATE VARIETIES OF CABBAGE FOR AUTUMN AND WINTER

FORMING LARGE, SOLID HEADS

Buist's Prize Medal Flat Dutch and Buist's Prize Medal Drumhead Cabbage

Will Produce Large Solid Heads, in any Country and in any Soil. The richer the Soil the finer the Heads.

 The Seed of this Cabbage is Sold only under our Seal, in Sealed Packets—Ounces, Quarters, Halves and Pounds. The Great Demand for it Requires us to Protect Ourselves and Customers in this Manner. Seed offered in any other way is Spurious Stock.

Oz., 20c. ; $\frac{1}{4}$ lb., 65c. ; lb., \$2.25.

The Great Cabbage for
the South

A Sureheader in Dry
Weather

Buist's Florida Header Cabbage

(Produces Heads from 15 to 30 pounds each)

 The Seed of this variety is Sold only under our Seal, in Sealed Packets, Ounces, Quarters, Halves and Pounds. The Great Demand for it requires us to protect Ourselves and Customers in this manner. Seed offered in any other way is Spurious Stock.

Oz., 20c. ; 4 oz., 65c. ; lb., \$2.25.

See Pages 38, 40, 41 Buist's Catalog for description of above varieties.

BUIST'S PERFECTION EARLY WHITE SPINE CUCUMBER

THE GREAT MARKET GARDEN VARIETY. It is put up and sold only in our Sealed Pound Cartons, and is the Best and most Reliable Stock of White Spine Cucumber in this country.

The most extensive Growers and Shippers in Florida and Virginia plant this variety exclusively. Orders the past year from Florida alone were over 12,000 pounds.

The Earliest, Finest Formed, Most Productive and Most Salable Variety to Grow for Market or Shipping. Price, $\frac{1}{4}$ lb., 35c. ; lb., \$1.25 ; 5 lbs. at \$1.15 ; 10 lbs. at \$1.10.

BUIST'S
IMPROVED
LARGE PURPLE
EGG PLANT
(THORNLESS)

Perfect in Form, Very Large, Deep Purple and Spineless.

Rocky Ford (Buist's Selected).—A selection from the famous Netted Gem, introduced by the Rocky Ford growers of Colorado. It has become a famous shipping variety, is beautifully netted, of oblong shape, flesh deep green, and of superior quality. This variety differs from the Perfection in its form and thickness of flesh, and its silver netting does not cover the Melon so thoroughly. So popular has this name become that many of the leading fruit stores display any melons they may have, no matter how inferior they may be, under the name of Rocky Ford. Oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

Burrell's Gem.—A very popular variety of the salmon flesh class, of medium size, oblong, well ribbed and covered with finely divided grayish netting, green skin, sweet and delicious; a very desirable market variety Oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 80c.

Burpee's Fordhook.—This is without question the best of all the yellow-fleshed Cantaloupes, which are becoming so very popular in many localities; is about the same size as the Improved Jenny

Fordhook Yellow Flesh Melon

Lind, heavily netted, flesh thick and solid, of a beautiful yellow color and of luscious flavor; seed cavity small average weight about two pounds; for market or private garden is unsurpassed and highly recommended Oz., 15c.; $\frac{1}{4}$ lb., 40c.; lb., \$1.25.

Rocky Ford (Buist's Perfection. The Rocky Ford is the famous Netted Gem, introduced from Pennsylvania to Colorado, and in the dry atmosphere of the latter State attains extraordinary perfection so that it has become famous as a shipping variety and is now more generally known as the Rocky Ford. Buist's Perfection is especially selected strain grown exclusively for us in Colorado and is absolute—the choicest stock obtainable; form almost round and completely netted, flesh green, very thick and of exquisite quality. Oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

TOMATO

Buist's Selected, or Prize Stone.—The Stone is a great favorite with all cultivators of the Tomato, and this famous stock which we offer is the result of an annual selection for several seasons; it will be found a great improvement for its solidity, productiveness, form and richness of color, and is without question the finest stock for canners or for private gardens; highly recommended for a main crop, is of large size, bright scarlet color, very smooth, ripening evenly to the stem without a crack; exceedingly solid and firm-fleshed; is an excellent shipper; is a good keeper; free from core and not subject to rot; its appearance remarkably attractive; its vines and foliage robust, heavily loaded with very uniform specimens of fruit. $\frac{1}{2}$ oz., 20 cts.; oz., 30 cts.; $\frac{1}{4}$ lb., 75 cts.; lb., \$2.50.

Buist's New Ideal.—In introducing this new variety we are giving the Market Gardener a Tomato possessing all the desirable points of a PERFECT SPECIMEN, being very solid, of a most perfect shade of scarlet, ripening uniformly close to the stem and has very few seeds, is free from crack or blemish and grows to a very large size, besides is most productive and of very delicious flavor in addition to these superior traits its shipping qualities are exceptional, making it the most profitable market variety as well as the most desirable for private use. $\frac{1}{2}$ Oz., 35c.; Oz., 50c.; $\frac{1}{4}$ lb., \$1.25; lb., \$4.00.

Livingstone's Globe.—There is a constantly increasing demand for this variety from the largest tomato growing and shipping sections of Florida; its attractive globe shape, its beautiful purplish-pink color, productiveness and fine shipping qualities are its recommendation; besides, it is a good seller as an early market variety, $\frac{1}{2}$ oz., 20 cts.; oz., 30 cts.; $\frac{1}{4}$ lb., 85 cts.; lb., \$3.00.

Houlton Early Rose

Buist's Selected Seed Potatoes

Put up in Barrel Sacks, containing $2\frac{3}{4}$ Bushels, 165 lbs.

The Buist's Brand of Seed Potatoes have an established reputation for their Great Purity, Fine Quality and Productiveness. They are grown in Maine and Vermont especially for seed, and are of an entirely different quality from the stocks generally sold, which are frequently mixed varieties of a very inferior grade, with the

name branded to suit the order. Our Quotations are Subject to Market Changes.

BUIST'S Selected Onion Sets

Our Onion Sets are very bright, handsome and well-cleaned samples, and of small size, which are the best for planting. They are far superior to Western or Southern-grown sets, which are generally large in size and spongy, sprouting earlier and shooting to seed before forming large onions.

YELLOW ONION SETS

Per qt., 12 cts. ; pk., 65 cts. ; bus., \$2.25 ; 5 bus. at \$2.00.

DARK RED ONION SETS

Per qt., 12 cts. ; pk., 75 cts. ; bus., \$2.50 ; 5 bus. at \$2.25.

WHITE ONION SETS

Per qt., 15 cts. ; pk., 85 cts. ; bus., \$3.00 ; 5 bus. at \$2.75.
